

CFS Brands/San Jamar EZ-KLEEN® Sauce Bottles Upend the FIFO Market

OKLAHOMA CITY, Okla., May 20, 2023 – Leave it to CFS Brands/San Jamar to upend the first-in, first-out (FIFO) sauce bottle market with their uniquely designed EZ-KLEEN® sauce bottles. Smooth interior side walls and interchangeable same-sized openings on both ends make FIFO dispensing, clean-up, and storage easier than ever before.

EZ-KLEEN® sauce bottles help chefs and foodservice professionals streamline their operations with a plating and food-prep sauce dispensing solution that is durable, affordable, and like other CFS Brands' products, squeezes out the competition.

The unique smooth interior walls and narrow cap channels reduce bacteria traps and make cleaning a breeze. The caps are interchangeable, so operators can easily swap out the valved lid with a solid lid for safe and sanitary storage.

Gravity directs the bottle contents toward the leak-resistant dispensing valves which are protected from surface contact by the unique cap design. Clear sidewalls allow the contents to be inventoried, and the removable top lid allows the bottles to be filled from the top.

EZ-KLEEN sauce bottles are available in three sizes (16, 20, and 24 ounce) with three leak-resistant valve options for thin-to-thick sauce dispensing. The green valves dispense non-viscous sauces like soy sauce or vinegar, the yellow valve distributes standard viscosity sauces like barbeque sauce or ketchup, and the blue valve is for thicker viscosity condiments like tartar sauce or sweet chili sauce.
