

CFS Brands Announces Upcoming Launch of Innovative Divided Mop Bucket

OKLAHOMA CITY, Okla., April 28, 2022 – Today, CFS Brands – Sparta, announced the upcoming launch of the OmniFit™ divided mop bucket that separates clean and dirty water – eliminating the cross-contamination of dirt, bacteria, and pathogens.

The divided mop bucket enables customers to clean their floors with fresh water after each wringing. The dirty water bucket nests under the wringer to separate the soiled water from the sanitary cleaning solution. The 200K cycle-rated wringer is compatible with select CFS Brands and competitor products. Additionally, its rounded edges and anti-splash technology reduce the risk of slips and falls, keeping staff and customers safe.

“With our 35-quart divided mop bucket, operators only need to empty the dirty water between cleaning, reducing the number of chemicals and water wasted,” states Philip Zorn, Product Manager, Cleaning Tools at CFS Brands. This innovative mop bucket reduces costs, increases efficiency, and vastly improves floor hygiene.

The divided mop bucket is available in six colors and is part of the OmniFit suite of floor care solutions of mops, handles, floor signs, and additional mop buckets, all manufactured in North America.

Product will begin shipping on July 15, 2022. Because of anticipated high demand, customers are encouraged to place their orders now.

CFS Brands – Designing Value. Delivering Success.
